<b>Australia Post - Overnight</b>	We recommend this service for Victorian and Tasmanian based breeders. Other States please check Postcodes to make sure delivery is guaranteed next day before using this method of transport.
<b>Perishable - Aust. Air Express</b>	Highly reliable same day service for Interstate breeders. Pick up required from Destination airport. Shipment will leave on the next available flight.
<b>Next Flight - Aust. Air Express</b>	The most reliable service for Interstate breeders. Pick up from airport (recommended) or delivery to your door (extra charges will apply to above rates).
<b>Overnight - Aust. Air Express</b>	This service is available but delivery is guaranteed within 48 hours, so we do not recommend. Price is similar to Perishable rates.
<b>TNT - Overnight</b>	An economical service with delivery to your door or pick up from depot. Not as reliable as Australian Air Express.

Please Note: Prices and Availability of Service are subject to change, in line with the shipping company's terms.
